**Download**

---

Tips for a successful download. Use an internet connection with a speed of at least 10 Mbps. . Make sure you have enough space on your hard drive. If you don't have the option to purchase additional space, you can transfer files to a drive specially formatted for booting from CD/DVD or to other drives where important files are stored. You can also save all the information on a separate hard drive or flash drive. If you do not have the opportunity to connect another computer or laptop, then you can use external drives. Some portable hard drives are capable of reading data from media such as CD/DVD.
