Here's our "FIFA 13 tips and tricks for the 2013 FIFA World Player Awards." In FIFA 22, there are new depth-of-field and added motion-capture, including "HyperMotion Technology" and "Movement Intelligence." The team did manage to get camera bugs fixed, most of which should be in FIFA 22, but it'll need to be tested a bit more as this is the first patch update for the game. Even though the beta patch is out for the EA Access and Origin members, the update is not out for the public.
